dba Curb System, LLC
241 Ridge St, Suite 212
Reno, NV 89501

Re: Purchase and Maintenance Agreement dated December 8, 2010.

Dear Mr. Dutt:

Curb System (SST) is hereby notified of the following pursuant to City Council's direction given November 7, 2012 and reaffirmed March 13, 2013.

A. Curb System is being provided the Notice of Termination pursuant to Article I.A.7 and Article V.L. as the parking system has failed to substantially perform to the satisfaction of the City for the following reasons:

1. One working Kiosk is not a reasonable standard and is not acceptable. A customer should be able to pay at the Kiosk which is closest to the parking space.⁵
2. One working available method of payment at a Kiosk is unacceptable to the City unless the customer is notified via the kiosk of a payment method being unavailable and to use another kiosk for that payment option. ^{1,5}
3. The push enforcement system does not provide assurance that a citation is not issued falsely; which informs an enforcement officer that a Kiosk is down for reasons other than communication (blank screen or windows operating error message) such as a malfunctioning keypad, coin or credit card acceptance.²

Therefore, Curb System (SST) has 120 calendar days (July 12, 2013) from the receipt of this Notice to modify the system to correct the above failures to the satisfaction of the City or the City will invoke the contract provision as to the removal of the system and restoration of the City's property to its original condition at Curb System's sole cost and expense.

B. Curb System is being provided the Notice of Termination based on default or breach of contract pursuant to Article IV.C.ii.a. of the Purchase and Maintenance Agreement for the following reasons. Curb System is in default and breach of the agreement in that Curb System has failed:

1. To provide a complete working payment system which shall at a minimum include U.S. coins (nickels, dimes, and quarters), charge cards, merchant validation, permits, subscriptions, and phone access. Said system shall also include the ability to pay parking fines through the parking kiosk, phones, or Internet browsers.¹
2. To provide the sensor parking space monitoring system which includes parking sensors for 1200 on-street parking spaces for direct enforcement. Only 230 spaces are currently covered by the sensors. All spaces must be covered by the sensor for parking enforcement. ^{2, 20}

3. In the guarantee – “In no event will SST’s fees cause the City’s annual net revenues to fall below their current level.”¹⁵ The City is demanding payment of the shortfall of \$613,882. (see attachment A)
4. To provide a Performance Bond to guarantee the faithful performance of the work, for warranty performance of the system, for removal of the system and restoration of City property.²¹
5. To provide a maximum of 121 standard Curb Kiosks to serve 1200 parking spaces²⁰ (see attachment B for recommended remaining Kiosk installation). The remaining Kiosks must be installed at the locations identified.
6. To provide a system which allows remote settings by the City or Curb System.³
7. To provide a system that “zeros out” remaining time.⁴
8. To provide to the City the Certificate of PCI compliance and to obtain the third party audit of PCI compliance.⁸
9. To provide to City a detailed timeline, milestones and action plan.¹⁸
10. To provide the City access to Curb’s Central Office.^{16, 22}
11. To maintain (prior to project substantial completion) parking space markings (paint has faded and space numbers are difficult to read).⁹
12. To provide to City information as to electrical connections and monthly electrical costs for Curb system.¹⁷
13. To provide public relations design and consulting services.⁷
14. To provide remote overtime notification (text messaging).¹⁰
15. To provide information as to meter and battery status.¹¹
16. To provide time of day pricing (parking management data).¹²
17. To provide parking forecast models (parking occupancy data).¹³
18. To provide inventory data.¹⁴
19. To provide City with 5% spare parts for equipment.²⁰
20. To provide a bike storage and dispensing system.⁶
21. To comply with the requirements for inspections and audits.²²
22. To turn over the collected coin deposits from the parking system to the City per written request provided on February 27, 2013.²³
23. To provide and maintain kiosk pay stations in a professional manner and appearance free of graffiti or other visual defects.²⁴

Therefore, Curb System (SST) has 120 calendar days (July 12, 2013) from the receipt of this Notice to provide evidence, satisfactory to the City, which shows that the declared defaults and breaches set forth above have been corrected.

Please be advised that, at this time, no phase of the installation has been accepted by the City.

The City reasserts and does not waive all its rights and remedies as to defaults and breaches previously alleged.

Sincerely,

John Flansberg, P.E.
Director of Public Works

cc: Andrew Clinger, City Manager
Kate Thomas, Director, Office of Management and Budget
Susan Rothe, Deputy City Attorney
Creig Skau, Deputy City Attorney

Attachment A

Secure Storage Technologies, LLC dba Curb System, LLC Revenue Guarantee to City of Reno

10.031 Guarantee One: In no event will 55T's fees cause the City's annual net revenues to fall *below their current level*.

The agreed annual net revenue figure between the Company and the City is \$335,000.

In Fiscal Year 2011-12; the City's net revenue was \$66,111*. Therefore the guarantee would be in effect with the Company owing the City $\$335,000 - \$66,111 = \$268,889$.

In Fiscal Year 2012-13 to date (July 1, 2012 through January 31, 2013); the City's net revenue is $\$149,576$ * (revenue is not covering cost). Therefore the guarantee would be in effect with the Company owing the City $\$335,000 \times 7\text{months}/12\text{ months} - \$149,576 = \$344,993$.

Total shortfall in revenues owed to the City to date = \$613,882.

*The City does not have record of coin payments from January 2012 to current, therefore, this revenue has not been included in the figures above. The City requested payment from the Company and was denied.
